Safety assessment
MegaPec Broth (Ready-to-use culture medium)

According to Regulation (EC) No. 1907/2006
Issue date: 2017-02-27, Replaces version: ---

Article number
TN 1707, TN 1708

Trade name
MegaPec Broth (Ready-to-use culture medium)

Intended use
For the selective enrichment of gram-negative beer spoiling bacteria belonging to the genera *Pectinatus* and *Megasphaera*. The main field of application is the process hygiene control, e.g. the analysis of swab samples taken in the beer dispensing area of a brewery. Detection of target organisms as visible turbidity is possible from day 3 of cultivation. Positive findings are confirmed by the typical smell. Depending on the species propagated and the duration of cultivation, a colour change of the medium may occur. The growth of both, gram positive beer spoiling bacteria as well as yeasts is completely inhibited.

Classification of the mixture
Classification according to Regulation (EC) 1272/2008 (CLP): This mixture is classified as not hazardous according to Regulation (EC) 1272/2008 (CLP).
Classification according to Directive 1999/45/EC (DPD): This mixture is classified as not hazardous according to Directive 1999/45/EC.

Label elements
Labelling according to Regulation (EC) 1272/2008 [CLP]: Not applicable.
Labelling according to Directive 1999/45/EC (DPD): Not applicable.

Other hazards
None known. Minimum standards for protection measures (TRGS 500) as common in the chemical industry should be followed.

According to Article 31 of the REACH Regulation, drawing up a safety data sheet for this product is unnecessary, as the product is neither classified as a hazardous material nor does it contain hazardous ingredients or materials with Community (EC) workplace exposure limits or substances of very high concern (SVHC) above their particular legal nominal limits. Under REACH Regulation (EC) no. 1907/2006 (REACH), no safety data sheet is therefore required and also not available in this case.
